**Statement of Substance of the Interview**

On November 6, 2007, Applicant’s representatives conducted an interview with the Examiner and his supervisor to discuss the previously applied art with respect to proposed arguments and amendments. In the interview, the Examiner indicated that the reinforcing ribs of the present invention would not be taught or suggested by the presently applied art and, therefore, may be a novel feature.

Claim 5 stands rejected under 35 U.S.C. § 103(a) as being unpatentable over Takahashi, Kontani and further in view of Brock. Applicant traverses these rejections for at least the following reasons.

Applicants have amended independent claim 1 in accordance with the suggestion of the Examiner and his supervisor during the interview of November 6, 2007. Accordingly, Applicant respectfully asserts that independent claim 1 and dependent claims 2-4 are in clear condition for allowance.
